Open Space Parcel Information

As part of the 2012 Open Space and Recreation Plan, much of the open space within Natick was identified, categorized, and tabulated in the plan. Building on that effort, this 2030+ Master Plan has combined the information found in the tables in the 2012 plan with the current 2016 Town of Natick's Assessors Database to create an ongoing database of current and future open space parcel acquisitions. The full table is provided here and includes both the Assessor's Map Parcel ID number and the 2012 Open Space and Recreation Plan ID number for each parcel.
